Q

To be used by Exempt and Non-Exempt Institutions.

Use Fund 320* when 100% of the institution qualifies as a TABOR designated enterprise, use Fund 305* when the institution does not qualify for Enterprise status. However, if the institution is not an enterprise they must still use fund 320* for any enterprise specific activity.

CORE ACCOUNTING MODEL

Asset Impairment with Insurance Recoveries

Used to record insurance recoveries on impaired assets. This model assumes the impairment is significant and meets the GASB 42 requirements. Insurance recoveries on impairments in the current year offset Impairment Loss. Insurance recoveries on impairments from prior years are recorded as revenue without offset. Assume restoration costs extend the asset life and are considered capitalizable. Insurance recoveries may be more or less than the expense incurred. The recovery is independent of the valuation.
